WATCH JASON'S STORY

Jason is an inspirational speaker and author who turned a near-fatal skydiving accident into a compelling message of resilience, faith, and momentum, defying medical odds to complete a triathlon and deliver practical lessons on overcoming adversity.

IMPOSSIBLE SURVIVED

In a split second, a huge gust of wind slammed me through a fence and into the side of an airplane hangar at 30mph while I was landing my parachute. The impact left me with 20 broken bones, 3 badly damaged organs, and thrust my heart from the left side of my body to the right.

After surviving an 8-day coma, 3.5 months in the hospital, and 11 months of rehabilitation, I defied the odds by completing a triathlon less than one year later. My journey isn't just about survival- it's about resilience, unlocking purpose, and transforming adversity into a framework others can use to overcome the impossible.

I am on a mission to empower people by providing the tools & mindset to overcome challenges that were once considered impossible.

SPEAKING TOPICS

Jason's programs focus on exploring the limits of what is possible, and then breaking through those limits. Each talk is grounded in real-world experience and practical frameworks that audiences can immediately apply.
